

Underrepresented Students in STEM S U P P O R T U S S

Come support **USS**, a new club aimed to support underrepresented students in Science, Technology, Engineering & Mathematics and provide the tools they need to succeed that they may have otherwise never have gotten to maximize individual potential. To give mentorship, guidance, and financial support in furthering education to fuel the next generation of STEM leaders. Foster their interest in additional STEM learning opportunities and career paths.

Leadership positions available! For more information, email USS at:
stemstudents.american@gmail.com
